

# EURETINA

## EURETINA Session: Vitreoretinal Surgery I: Management of silicone oil complications Presentation Details

**Time & Date:** 2 September, 08:30 – 09:30 CEST

**Chairperson(s):** J. Carlos Pastor *SPAIN* & J. Smith *UK*

### Speakers:

J. Carlos Pastor *SPAIN*

J. Carlos Pastor *SPAIN*

M. Spitzer *GERMANY*

J. Smith *UK*

S. Pastor-Idoate *SPAIN*

R. Coco *SPAIN*

K. Januschowski *GERMANY*

M. Romano *ITALY*

All Faculty

### Presentations:

08:30 Introduction

08:33 Why this symposium?

08:39 Causes and management of the intraocular pressure elevation after silicone oil

08:45 Unexplained visual loss after intraocular tamponades

08:51 Re-proliferation and epiretinal membranes: diagnosis, management and prevention

08:57 Emulsification. How to establish the diagnosis? Related clinical factors

09:03 Chemical factors related to emulsification. Complications derived from the emulsification

09:09 Value of viscosity and chemical purity to prevent further complications. Synergistic toxic effect Interactions between the different compounds used in surgery

09:15 Discussion
